The Francesco Loccisano Memorial Foundation

Francesco Anthony Loccisano, also called Frankie, was a teen who fought and succumbed to cancer. As an older pediatric cancer patient, he greatly understood the enormity of what it means for a child to be so ill and fighting for life instead of enjoying life. As Frankie fought with dignity, grace and courage, he vowed to develop his own foundation to reach out with open arms toward the children.

In this spirit, the primary function of our organization is to directly, actively and responsibly supports children who are diagnosed with cancer and undergoing life-saving treatments that are critical to their care and survival.
